

Impacting lives for close to two decades

Upholding the philosophy, 'Busy is a state of mind', Kalpaja A Dalavoi, an entrepreneur, business leader, thought leader and philanthropist, has made a difference across the education, healthcare and utility sectors since 2003.

"I have collaborated with industry leaders, innovators, policymakers, a team of vibrant employees, to raise the bar for consumers' service levels by implementing practical ideas. I actively strive to build value for stakeholders, while continuing to hold key posts in renowned institutions," she says.

A doyenne in the healthcare services sector, Kalpaja is the Chairperson, Vydehi Institute of Medical Sciences and Research Center - Hospital and Medical College and Administrative Director, Mallya Hospital, Bengaluru, since 2003 in addition to managing the Primary Health Center, Chittoor, Andhra Pradesh. Under her progressive leadership, the healthcare services' growth trajectory has been emphatic, and her innovative concepts have brightened the healthcare horizon.

"We are focused on delivering quality healthcare service at an affordable cost, thus providing high value to the citizens. Collectively, the hospitals house 2,000 beds and serve through 44 speciality and super-speciality departments. With planned modernisation, following ethical compliance, we have created a platform that continually produces some of India's most exceptional and award-winning surgeons, doctors and healthcare professionals," she explains.

Kalpaja's belief that education is a crucial building block for nourishing talent and shaping bright minds as the future of a well-functioning society, drives her to invest in the educational field.

"It gives me great satisfaction to have nurtured numerous leading institutions like Vydehi Institute of Medical Sciences College, Vydehi Institute of Dental Sciences College, Vydehi Institute of Nursing Science College, Vydehi Institute of Bio-Technology Science College,

Kalpaja A Dalavoi (in picture below) along with her team

Dalvkot Training Institute, Vydehi School of Excellence and Vydehi Special School, dedicated for the specially abled, to gain a good reputation over the years. The institutions, located in lush green campuses in Whitefield, Bengaluru, boast of outstanding facilities to enhance the learning experience, boost confidence in students, and uplift the faculty's morale," says Kalpaja.

Kalpaja is also the founder & CEO of Dalvkot Utilities Enterprises Pvt Ltd. "As an active observer of Indian and global markets and trends, I, along with the other founder, established it in 2017, bringing together entrepreneurial talents across various utility verticals. We have helped over 3,000 employees, find a stable career with fair growth opportunities. By

creating multiple incubators under health, pharma, biofuel, food and catering, spirituality and information technology sector, our focus lies in innovating products and services on a global scale. By breaking conventional models of services using new market insights, powered by technology, Dalvkot has been growing exponentially to match the demand for its services," she explains.

Under her dynamic leadership, Kalpaja continues to play a vital role in attracting leading professionals under each vertical, while providing them with a platform to implement their expertise and excel.

As the backbone of her companies, she drives their quality benchmark, keeps her workforce motivated to perform consistently, improve customer relationships, and excel in post-sale support.

As a professional woman working in education, health care, and rehabilitation, Kalpaja's leadership and commitment have greatly expanded care and educational opportunities in the community.

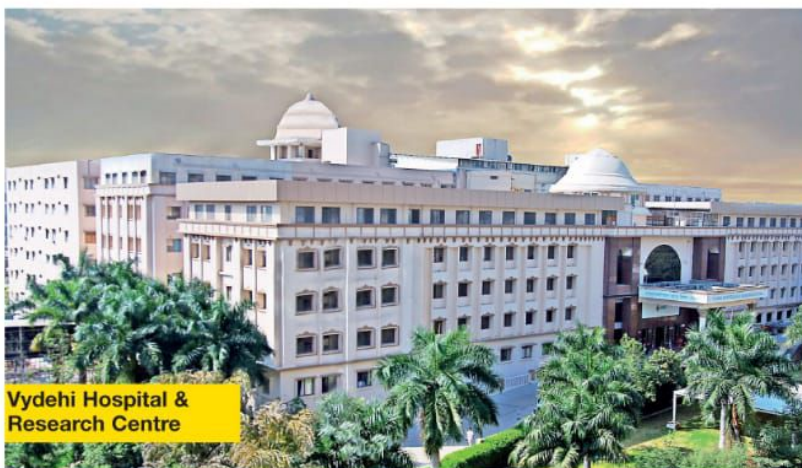

Mallya Hospital is managed by Chaparral Health Services Ltd, now named Vydehi Super Speciality Hospital, managed by Dalvkot Utility Enterprises Pvt Ltd.

It is a 300-bedded state-of-the-art super speciality centre which focuses on emergency care, with reputed doctors and with the best infrastructure. Kalpaja also manages the 50-bedded DWC Super Speciality Center at Whitefield.
