VYDEHI EARLY INTERVENTION PROGRAM

VEIP Offers A Path To A Brighter  
Tomorrow For You And Your Child

## Early Intervention

### Building bridges to a brighter future

At VEIP, we foster and support the early development of young children with disabilities by creating a vibrant tapestry of learning with specialized teaching, therapy, and assistive tools. We tailor individual plans to build confidence, overcome challenges, and unlock your child's unique potential.

#### UNDER THE GUIDANCE OF THE INTERNATIONAL FACULTY AND ADVISORY BOARD

Professor Emeritus  
Sacramento State University,  
College of Education  
Sacramento, California, USA

## What is VEIP?

The Vydehi Early Intervention Programme (VEIP) delivers tailored educational and therapeutic services to young children with disabilities and their families. These services are provided through individual and small group sessions in a socially stimulating and developmentally appropriate environment. VEIP identifies and offers effective early support to children from birth to five years, emphasizing fine and gross motor skills, and social, emotional, communication, and cognitive development. The program aspires to enhance self-esteem, alleviate frustrations, and ensure children gain the essential skills needed to eat, move, grow, play, and thrive.
