

The Department of Radiology successfully conducted a Continuing Medical Education (CME) program titled “**Contrast Media Updates**” on 09/07/2025. The event saw enthusiastic participation from postgraduate students, faculty members and technicians across department of radiology , pharmacology and nuclear medicine

The CME covered as many topics ranging from contrast handling to adverse reaction management and reporting. Renowned speakers from within the institution and from industry shared valuable insights through interactive sessions and case discussions.

The feedback received from attendees was overwhelmingly positive, with many expressing appreciation for the practical relevance and clarity of the topics discussed. We believe that such academic events significantly contribute to the holistic development of our trainees and uphold the standards of clinical excellence in our institution with regarding the Contrast media usage and ADR reporting .

We are grateful for your support in organizing this event and look forward to conducting many similar programs in the future.
