

VYDEHI MEDICAL & DENTAL FRESHERS' DAY 2025

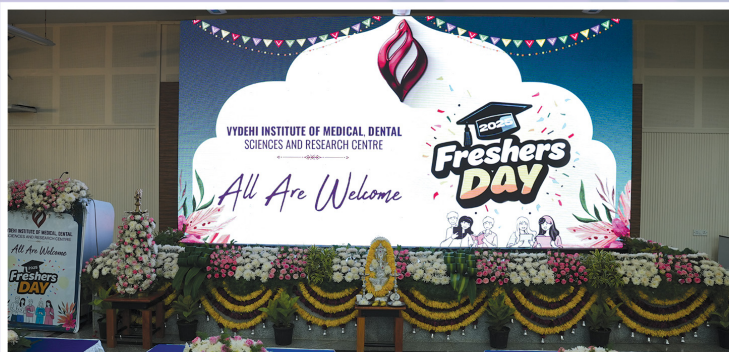

WELCOMING THE NEW BATCH OF FUTURE HEALTHCARE PROFESSIONALS

The vibrant campus of Vydehi Institute of Medical Sciences and Research Centre and Vydehi Institute of Dental Sciences came alive as both institutions jointly celebrated Freshers' Day 2025, extending a heartfelt welcome to the new batch of aspiring doctors and dental surgeons. The event marked the beginning of a promising journey in medical and dental education — one filled with learning, compassion, and service to humanity.

The ceremony commenced with the lighting of the lamp by Dr. D. A. Kalpaja, Chairperson of Vydehi Group of Institutions, symbolizing the illumination of knowledge and the start of a noble academic pursuit. She was joined by esteemed dignitaries — Dr. Shreedhar Venkatesh (Principal, Vydehi Medical College), Dr. Umamaheswar (Medical Superintendent), Dr. Mohan Thomas Nainan (Principal, Vydehi Dental College), and Dr. Jagadeesh N (Vice Principal, Vydehi Medical College) — who together inaugurated the occasion with reverence and enthusiasm.

The presence of parents added warmth and pride to the event as they witnessed their children being officially welcomed into the Vydehi family. Their joy and emotions reflected the significance of this milestone — a moment when dreams begin to take shape and futures begin to shine.

The event concluded on a high note with blessings, group photographs, and a sense of unity among students, parents, and faculty. Freshers' Day 2025 at Vydehi was not merely a welcome event — it was a celebration of new beginnings, lifelong friendships, and a shared mission to heal and serve society.

The newly admitted students took the solemn oath, pledging to uphold the values of medical & dental ethics, empathy, and service in their professional lives. The dignitaries addressed the gathering with inspiring words, encouraging the students to pursue excellence with integrity and compassion.

The celebration also featured cultural performances, student introductions, Vydehi Milestone Documentary Video, and interactive sessions that helped break the ice and build camaraderie among peers. Faculty members expressed their delight in welcoming a new generation of learners who will carry forward Vydehi's vision of quality education and compassionate care.
