**D**alvkot Utility Enterprises Pvt Ltd., is the result of efforts of like-minded and highly qualified professionals from various fields, to design and start a quality service-based business that focuses on aspirational and essential services and products, to strengthen the core life of Indian citizens. Currently, serving in multiple industries across Education, Pharmaceuticals, Healthcare, Bio-fuels, IT Services, Spiritual and Hospitality verticals, they are keen to expand services into other sectors.

Dalvkot's Founder Directors Kalpaja A. Dalavoi and Dr. Mahesh Kottapalli are steadfast in their combined efforts to transform new and existing businesses, by blending creative approaches with innovative, indigenous products and services for the greater interest of the Indian society.

Dr. Mahesh Kottapalli, MD is an Infectious Disease Specialist in Dallas, Texas and has over 2 decades of experience in the medical field. A winner of several awards and accolades, he is actively involved in offering a plethora of quality health services, ranging from wound care to treatment of infectious diseases. Even in the recent pandemic times, Dr. Mahesh played a critical role in the management, treatment and care of COVID-19 patients at VIMS Hospital, Bengaluru. He has transformed many lives with his medical knowledge and is now focused on con-

proaches with the innovative products or reliable services. The group runs Vydehi Super-speciality Hospital (VSH) formerly Mallya Hospital, which is on a mission to provide 24 x 7 comprehensive critical care to the citizens of Bengaluru, Karnataka. DWC Super Speciality Centre located in Whitefield, Bengaluru offers quality health services, ranging from wound care to surgeries and non-invasive therapy to treat chronic diseases. Dalvkot Pharma aims to fill the gap, with a trust-focused pharma distribution network that guarantees superlative quality in India's health map. The company forayed into the hospitality with food trucks, ensuring local go-to dining destinations at affordable prices with Vindoos. PujaNPujari is the e-commerce segment offering bespoke services as well as puja accessories in accordance with Hindu dharma. Dalvkot IT is a large team of software, networking and hardware engineers providing sustainable, end-to-end IT Solutions.

Dalvkot has ambitious expansion plans in terms of providing an enhanced experience and is steadily spreading its footprint across the region.
