## THE ADVANCEMENT OF MEDICAL CARE WITH HOLISTIC APPROACH AND EMPATHY

From the common cold to life-threatening Cancer diseases, expert medical assistance has become the must factor after the pandemic. With the increase in health complications, the healthcare industry also pulled its socks up to serve society in a better way. As society has accepted the reality of "health is wealth," the responsibility of the healthcare industry has been increasing day by day.

### In The Path Of Healing You, Vydehi Institute Of Medical Sciences And Research Center

Vydehi Institute of medical sciences and research center, known as Vydehi Hospital, is extending its arms to every possible healthcare service direction to fight against the illness of the people. On the firm bedrock of vision, integrity, commitment, and empathy Vydehi Hospital has gained the trust of the people of India. In addition to that, a recognizable number of international people are also contacting and consulting the Vydehi hospital through online and physical consultation.

Vydehi Hospital, along its path of work, is achieving many milestones, and the number of positive testimonials is an indication of the quality of service provided by the hospital. Vydehi Hospital inaugurated its new wing called Nuclear Medicine, which is beneficial in diagnosing and treating diseases. Pain medicine is another department of the hospital whose genuine efforts are helping people to get rid of chronic pain. The department of neurosurgery has successfully conducted surgery on a West Bengal woman who lost her locomotion in a road accident. Within a couple of days after surgery, the lady started to walk.

The determination of Vydehi Hospital is to treat people for the betterment

stop in treating a 17-year-old Bangladeshi girl who lost her eyesight due to cancer. The management and doctors crowdfunded among themselves the surgery to gift her a new life. The story does not end here. The department of Oncology performed a complex minimally invasive cancer surgery for a large kidney cancer, and this NOTES technique helped a 53-year-old lady to lead a cancer-free life. Along with the considerably low cost and effective treatments, constant campaigns throughout India is another effort of Vydehi Hospital in the field of healthcare service.

### Vsh: Round-The-Clock Medical Assistance Because Every Minute Matters

Another branch of Vydehi Hospitals, Vydehi Super-Speciality hospital, formerly known as Mallya Hospital, is located in the heart of the city of Bangalore and provides quality healthcare services. With a legacy of 25 years, the hospital has grown with a substantial increase in bed strength, infrastructure, and an assurance of quality patient care with human touch using state-of-the-art technology with quality health care un-

der one roof. Vydehi Super-speciality hospital's vision is to provide "Individual care to deliver some of the best results – at every step." With 360-degree care, patients get to experience the concept of Total Quality Management. The consultants and nursing staff are experts in their specialties. The vision of quality and commitment drives them to provide individual attention for deriving maximum treatment outcomes. Clinical skills, friendly ambiance, and motivated staff made the patients leave the hospital with healthy delight.

The Emergency protocols at Vydehi Superspeciality hospital ensure quick response and treatment administered immediately. Vydehi Superspeciality Hospital has a team of ready-to-go, experienced trauma care team who are available 24/7, along with advanced life support equipment to deal with all types of medical emergencies. It has advanced life support ambulances, managed by a team of experienced paramedics, which ensures that emergency treatment is started even before a patient has reached the hospital, increasing the survival rate of the patients.

On the occasion of world cancer day, VSH conducted a bike rally to spread awareness of cancer. VSH also entered into Collaboration with the British Association of Physicians of Indian Origin (BAPIO) and BTA with the aim of developing and providing training and exchange programs for doctors and nurses in India to meet the growing demands of effective and safe delivery of emergency care across the globe.
