

Testimonial of Successful Neurosurgery by Vydehi Hospital

When the woman of the house gets bedridden, the whole house starts feeling the pain. This is the story of Sarathi Mondal 38 years lady. As the lady narrates she stated observing a gradual loss of movement in her hands and legs.

In later stages, she depended on two persons to carry her for her everyday work. She was diagnosed with a C1 C2 Spinal Cord Tumor for which she came all the way to Bangalore in search of good treatment.

The Vydehi Institute of Medical Sciences and Research Centre helped her with surgical treatment as a result she regained her strength of movement. She started walking independently and was able to do all her daily activities on her own post Surgery.
