

VYDEHI INSTITUTE HOSTS SUCCESSFUL CME ON EPILEPSY ON ACCOUNT OF INTERNATIONAL EPILEPSY DAY

Whitefield, Bengaluru: A successful CME program on Epilepsy was organized on February 10, 2024, by the Department of Neurology and Neurosurgery at Vydehi Institute of Medical Sciences and Research Center. The Epilepsy Conference drew a significant number of medical professionals eager to deepen their understanding of Epilepsy.

The Event

Dr. Ananth Kishan, Professor and HOD of the Department of Neurosurgery, served as the Organizing Chairman, guiding the program with his expertise. The Program offered 1 CME credit hour to participants who attended in person, thus, emphasizing the importance of in-person knowledge exchange.

Event Highlights

The agenda of the conference with the theme of **'An Update on Epilepsy CME'** covered a range of crucial topics

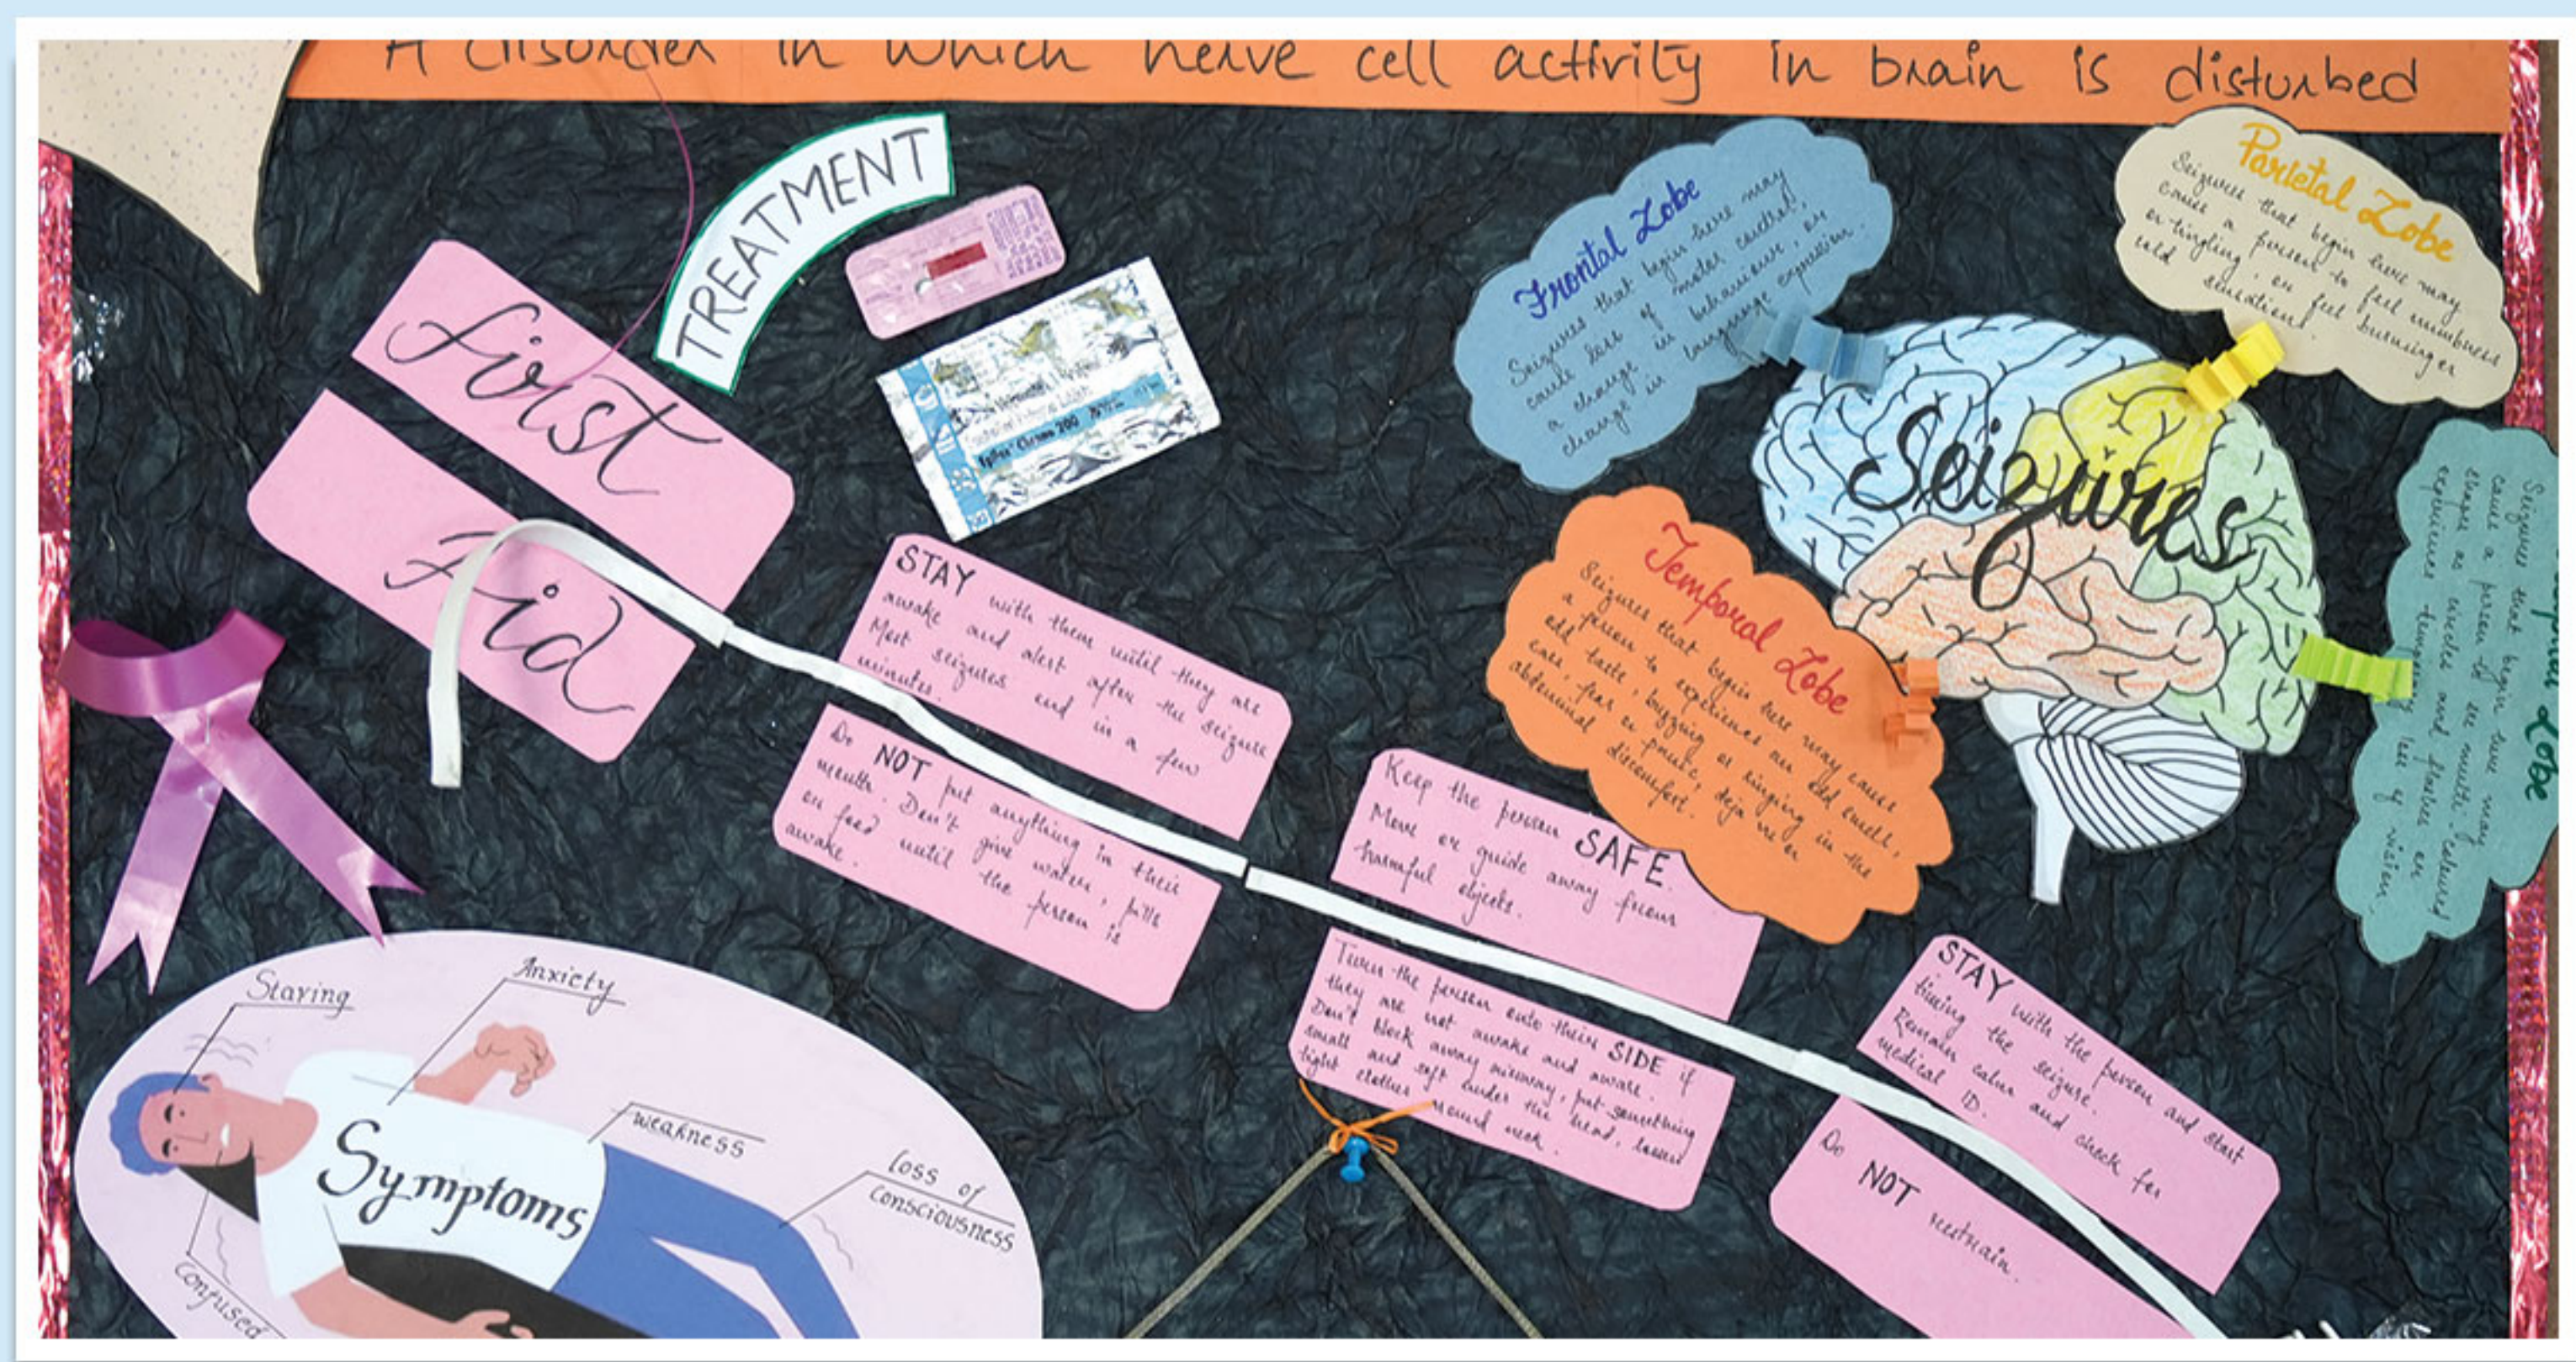

Overview of Epilepsy

The event kickstarted with an introductory session providing a comprehensive understanding of the nature, causes, and types of epilepsy, equipping the participants with essential foundational knowledge on the complex neurological condition.

Radiological Spectrum in Epilepsy

During this session, the importance of advancements in neuroimaging was highlighted. It also delved into various imaging techniques for diagnosing and localizing epileptic foci.

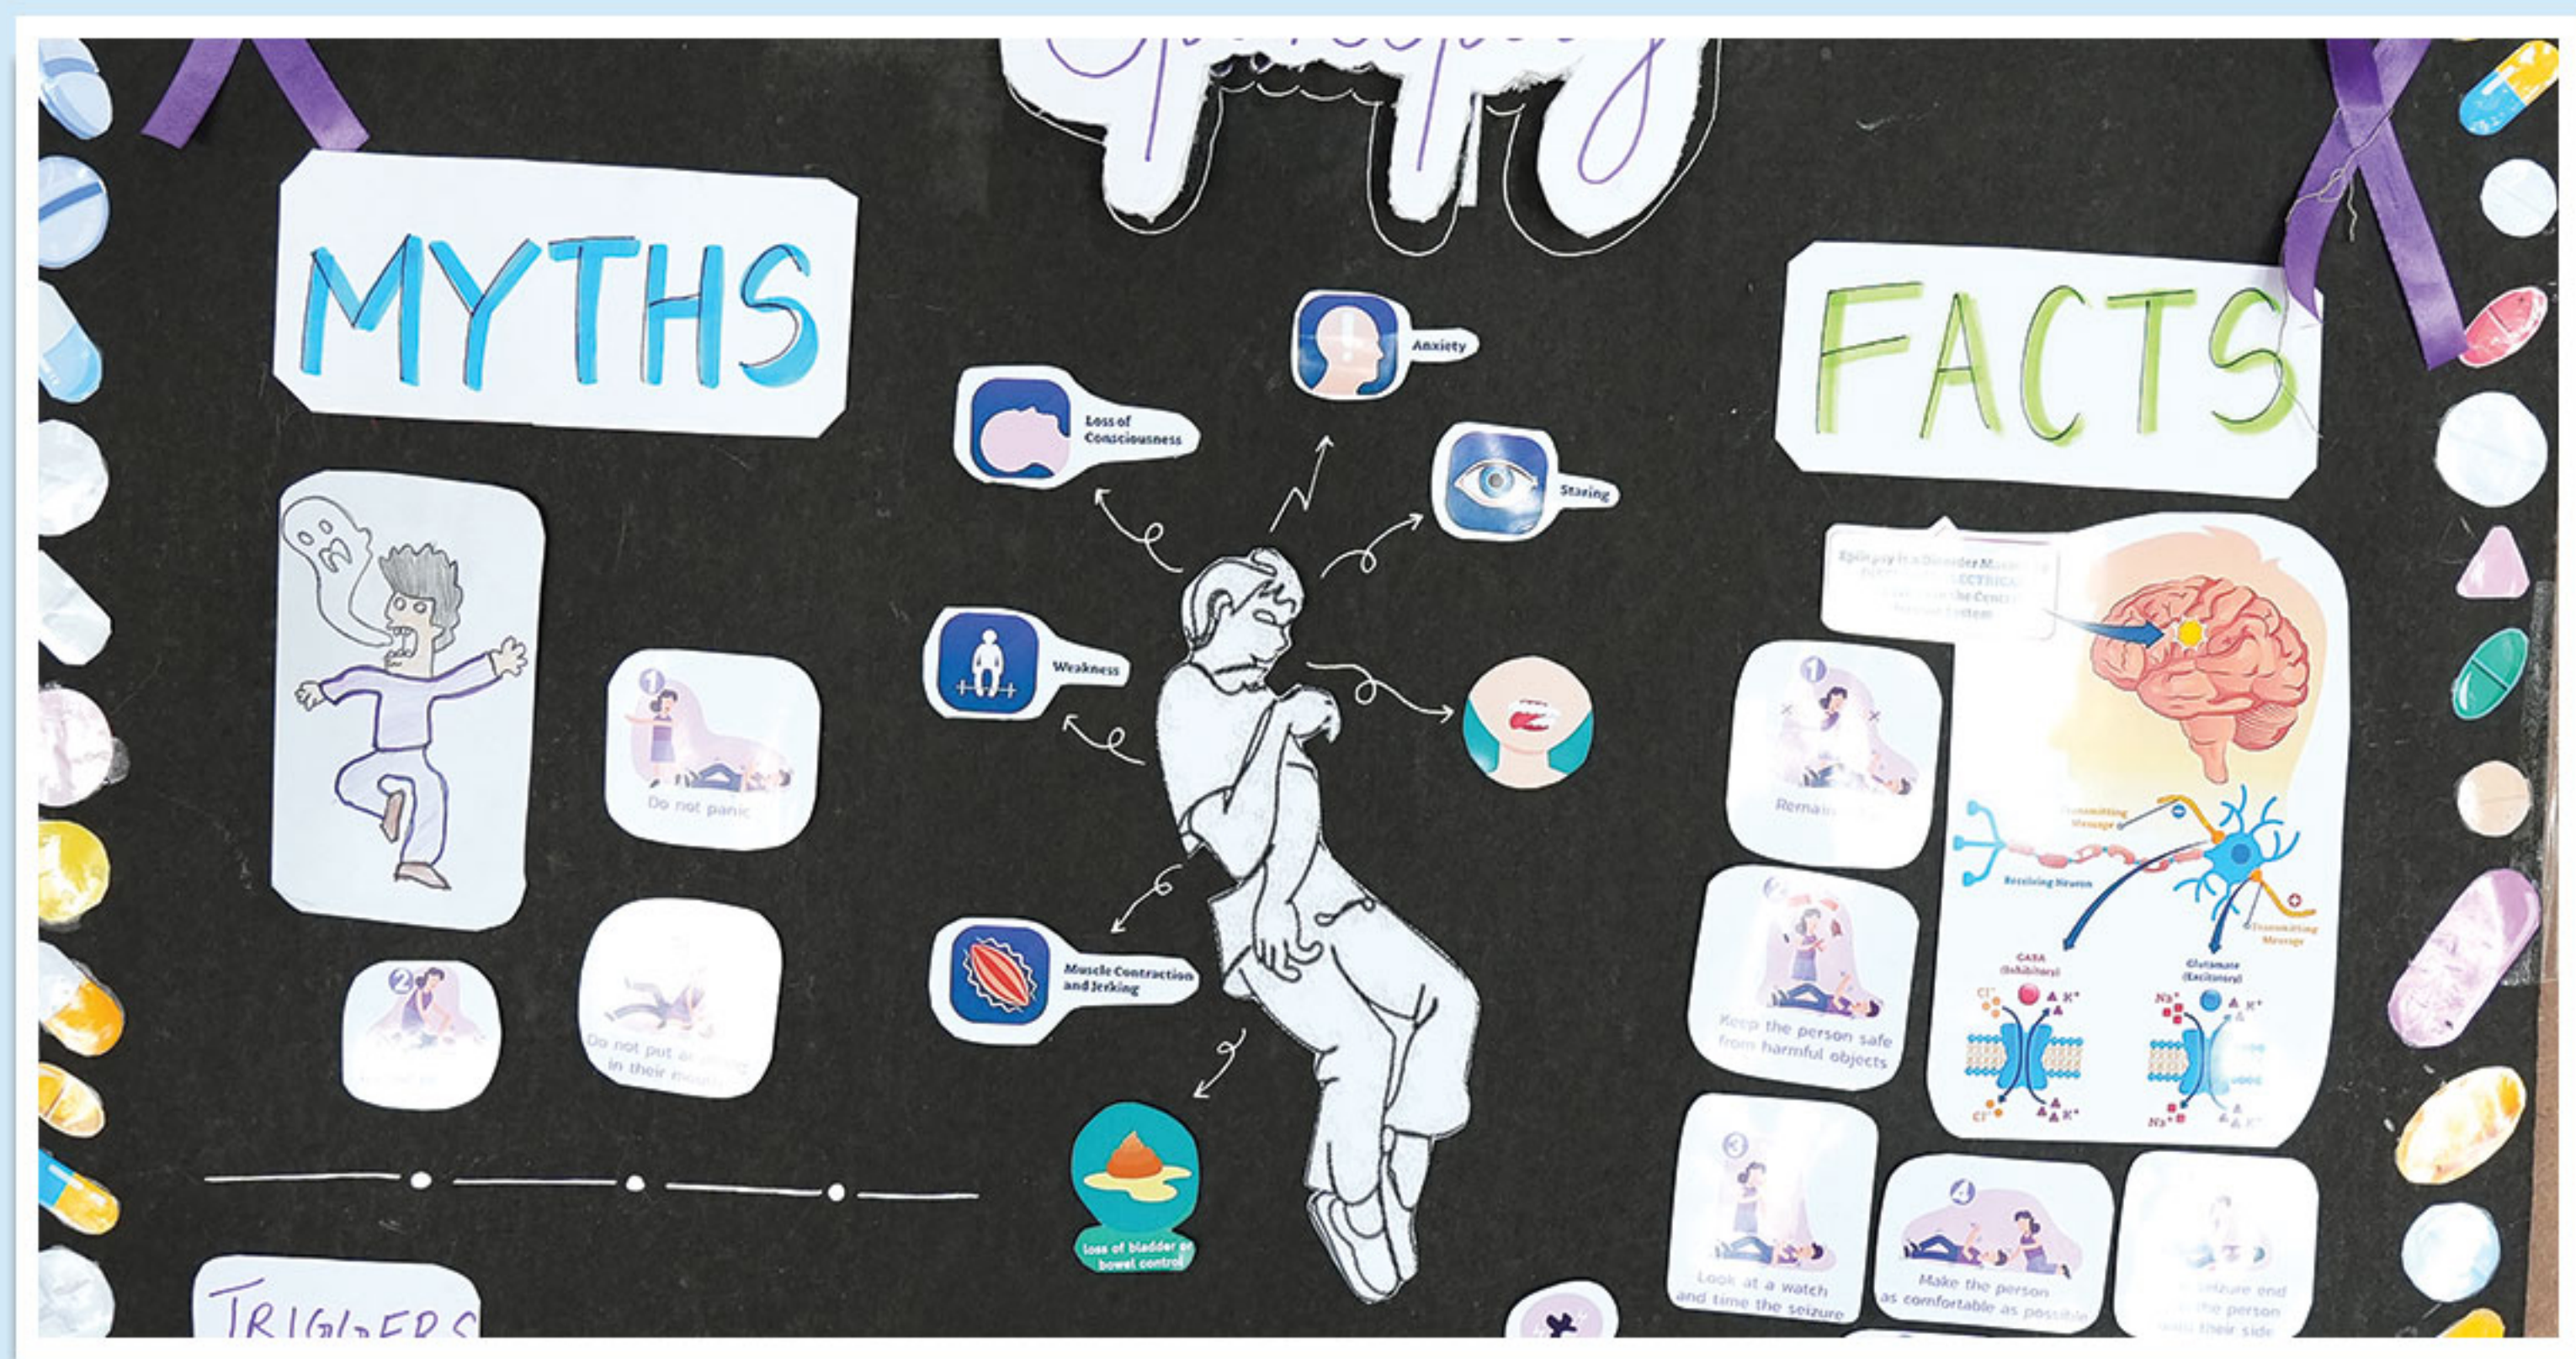

Medical Management of Drug-Resistant Epilepsy

This topic addressed the challenges associated with Epilepsy that do not respond to medication with the need for exploring current and emerging treatment options.

Pre-Operative Evaluation of Drug-Resistance Epilepsy

With a focus on the meticulous assessment process conducted before considering surgical intervention for epilepsy this session delved into ensuring optimal patient outcomes.

Surgical Management of Drug-Resistance Epilepsy

This session outlined the benefits and potential risks of the different surgical approaches available for treating drug-resistant epilepsy.

Impact and Significance

The CME program organized on account of International Epilepsy Day, proved to be a valuable platform for medical professionals to learn from renowned experts, exchange knowledge, and stay updated on the latest developments in epilepsy management. This collaborative learning environment fosters improved patient care and promotes continued advancements in the field.

Moving Forward

The success of this CME program underscored Vydehi Hospital's commitment to providing high-quality medical education and promoting excellence in epileptic patient care. The conference played a vital role in empowering healthcare professionals for the effective management of epilepsy, thus, contributing to the improvement of lives of epileptic individuals.
